

## **Panel**

### **The Making of ISO/IEC 8652: Ada 2005**

### **Erhard Ploedereder (University of Stuttgart)**

ISO/IEC JTC1/SC22 WG9 Ada Rapporteur Group (ARG) is in the process of defining the next generation of the Ada language, which is expected to be an approved standard in the year 2005. A panel of experts will provide a status update on the process and provide some insight as to the language features that might be included in the next generation of Ada as well as their rationale.

Panelists include:

**Joyce Tokar**, *DDC-I* (Head of Delegation, ANSI Technical Advisory Group)

**Randy Brukardt**, *RR Software* (WG9 ARG Editor)

**Pascal Leroy**, *Rational Software Corporation* (Chair of WG9 ARG)

**S. Tucker Taft**, *AverCom Corporation – A Titan Company* (Chief Designer of Ada95)
